About SMACNA

The Sheet Metal and Air Conditioning Contractors' National Association (SMACNA) is an international trade association representing 1,723 member firms in 97 chapters throughout the United States, Canada, Australia, and Brazil. A leader in promoting quality and excellence in the sheet metal and air conditioning industry, SMACNA has offices in Chantilly, VA., which is outside of Washington, D.C., and on Capitol Hill.

Who We Are

SMACNA members perform work in industrial, commercial, institutional, and residential markets. They specialize in the following:

- Heating, Ventilation, and Air conditioning
- Architectural sheet metal
- Industrial sheet metal
- Kitchen equipment
- Specialty stainless steel work
- Manufacturing
- Siding and decking
- Testing and balancing
- Service and retrofit
- Energy management and maintenance

Our Contractors Set the Standards for the Industry

The voluntary technical standards and manuals developed by SMACNA Contractors are accepted worldwide by the construction community, as well as foreign government agencies. ANSI, the American National Standards Institute, has accredited SMACNA as a standards-setting organization. SMACNA does not seek to enforce its standards or provide accreditation for compliance.

SMACNA standards and manuals address all facets of the sheet metal industry, from duct construction and installation to air pollution control, energy recovery and roofing. Shop the standards available in the store.

* U.S. and Canadian Contractors

How We Help our Members

The association offers contractors professional assistance in the following areas:

- Labor relations
- Legislative assistance
- Research and technical standards development
- Safety
- Business management
- Project management

Additional Resources Available on SMACNA.org

- **Newsletters** - In the market for value-added solutions? Want to see some cutting-edge projects from SMACNA contractors? Got a dilemma that needs solving? You'll find it all in SMACNA's e-newsletters. The latest products, services and industry technologies are prominently featured in addition to articles on market growth, energy efficiency, and more... Subscribe to one or all of them today.
- **Press Releases** - Access archives of SMACNA Press Releases.
- **Events & Education** – Access lists of all upcoming events and educational opportunities.
- **National Educational Programs** – SMACNA offers multi-day National Educational Programs developed for owners, managers, project managers, future managers and supervisors.
Classes offered include:
 - Business Management University
 - Project Managers Institute
 - Advanced Project Managers Institute
 - Financial Boot Camp
 - Supervisor Training Academy
 - Leadership Development Program
- **Advocacy** - SMACNA takes a strong leadership role on Capitol Hill. SMACNA National puts all the resources needed to stay on top of industry issues in the nation's capital, including a legislative office just two blocks from the U.S. Senate. This effort is matched by committed SMACNA members and it pays off in the direct impact our industry has with legislators and regulators. SMACNA leaders and members know that competing interests will step up to the plate and important battles will be lost without our experience, knowledge and input.

- **Safety & Health** - SMACNA's Safety and Health Department develops safety programs, publications, services and videos to assist members in establishing and managing effective safety programs. SMACNA's Safety and Health Department also communicates with OSHA and other federal agencies on issues affecting members and provides members with briefings on regulatory compliance issues.
- **Publications Store** – Visit our online store to purchase SMACNA technical publications, manuals and standards at member pricing.
- **SMACNA Subscriptions** – Annual subscriptions to SMACNA's 37 title technical library are available via the cloud. Users can access content from anywhere – at home, in the office, or in the field.
- **Technical Resources** - Technical standards and manuals developed by SMACNA members have worldwide acceptance by the construction and code community, as well as local and national government agencies. ANSI, the American National Standards Institute, has accredited SMACNA as a standards-setting organization. SMACNA standards and manuals address all facets of the sheet metal and HVAC industry – including duct construction and installation, indoor air quality, energy recovery, roofing and architectural sheet metal, welding, and commissioning.
- **SMACNA Connect** - There are many ways to connect with sheet metal contractors and other industry professionals. Whether it's through a local chapter, social media or through one of our discussion groups, there is some place for you to ask questions, share business concerns or just build your own personal network.
